**Notation for the references:**
Whenever possible, we add free web links to publications or their arXiv numbers:

- In all cases, try [http://scholar.google.com](http://scholar.google.com) search on the title.

- (◦) means that the item in English is available electronically by subscription, either from JSTOR or from the publisher’s web site
- (₽) means that the item is available in Russian either as an original work or as a translation, but may not be available electronically
- (JUnit) means that the item in Russian is freely available from [http://math.ru/](http://math.ru/)

The web links are clickable in this file and are either to web pages with unrestricted access to papers, or to papers themselves (in .pdf, .ps or .ps.gz format). The links are redirected via the [http://TinyURL.com](http://TinyURL.com) web site. If you wish to see the site addresses (and file extensions) before opening them, go to the company web site and use the *preview* feature.
