Special Seminar

Is there life outside academia? Non-academic job options

Speaker: Kathy O’Hara

3:35 PM  Friday, November 8.  Vincent 16

Are you interested in career opportunities that a Ph.D. in Math can perform outside of the tenure track framework? There are many options out there. I started my career as an academician, and then shifted to an administrative role at the National Science Foundation, the Mathematical Sciences Research Institute, and currently, the Virginia Bioinformatics Institute. This means I get to travel widely, create educational/outreach programs that require stakeholders across the county, and also interact with people: young students in Math Circles, to post docs at Virginia Tech. If you are interested in a conversation....
