HW Requirements

1. Write in complete sentences, where appropriate. If you are questioning whether a full sentence is required, the answer is probably yes. The exception is True/False questions that don't ask for justification or examples.

2. Use full sheets of paper, roughly 8.5” x 11”. Notebook, engineering, and standard printer paper are preferred.

3. If you do use notebook paper, make sure no “fringes” are attached. Either tear them neatly (most are perforated) or cut them off.

4. Staple any assignment that uses multiple sheets of paper. Paper clips and folding the corner down will not count.

Failure to follow any of these requirements gives me the option to deduct points. Each HW is only worth 10 points, so please don't throw away whole letter grades for silly things.
